Strategic PMO/ Program & Portfolio Governance /Procurement & Project Delivery

PROFESSIONAL SUMMARY

Senior procurement and project-delivery professional with 20+ years of UAE experience supporting complex, high-value infrastructure, landscaping, irrigation, MEP and construction portfolios. Combines long-standing practical leadership in procurement, contracts, supplier governance and risk with advanced PMI credentials in portfolio, program, project and risk management. Experienced in aligning procurement priorities with project and organizational objectives, coordinating cross-functional stakeholders, reporting strategic risks and performance to senior management, and improving governance and ERP processes. Seeking a transition into PMO, program/portfolio support, governance, strategic projects or project-delivery roles where this combination of operational depth and portfolio/program knowledge can add value.
